

**DRIVING MISSION SUCCESS THROUGH
PARTNERSHIP**

Mission Statement

STI Federal - ISHPI Alliance, LLC

WWW.STISHA.NET

At STISHA, our mission is to deliver innovative solutions that help federal agencies modernize systems, processes, and technology - driving greater efficiency, resilience, and mission performance. We combine the agility, cultural insight, and purpose of a tribally owned enterprise with the proven scale, technical depth, and operational excellence of an experienced federal contractor.

Guided by the enduring strength of Anishinaabe values, we lead with courage, innovate with intention, and serve with integrity. Every contract we undertake reflects our commitment to excellence, our unique cultural perspective, and a community-driven purpose - advancing federal missions while creating lasting prosperity for the Chippewa citizens.

Core Competencies

Cybersecurity

Strategic cybersecurity planning, including workforce development, to fortify the cybersecurity of Government networks and systems. We transition agencies from static compliance to dynamic threat mitigation by aligning with the Cyber Security Risk Management Construct (CSRMC), leveraging a diverse knowledge base of proven Risk Management Framework (RMF)-related Tactics, Techniques, and Procedures (TTPs).

Secure Software Development & Software Engineering

Engineering secure software solutions, IT modernization, and digital transformation for resilient infrastructure.

Enterprise IT Operations

Network Design & Implementation, Cloud & Virtualization Services, Enterprise Systems Management, SAP & Enterprise ERP Modernization, Cybersecurity Integration, and AI-Enabled Solutions.

Professional Support Services

Project Management & Administration, Risk Assessment & Mitigation, Acquisition Strategies, Budget Monitoring & Analysis, and Cloud Computing Services.

Engineering & Technical Services

Reliability & Maintainability (R&M), Systems Engineering & Integration, System Lifecycle Design Engineering, and Test & Evaluation Services.

Business Intelligence & Data Management

Reliability & Maintainability (R&M), Systems Engineering & Integration, System Lifecycle Design Engineering, and Test & Evaluation Services.

Integrated Scientific & Technical Support for Public Health Programs

Epidemiology & Advanced Diagnostics, Operational & Pandemic Readiness, and High-Impact Health & Science Professionals.

Training & Education Solutions Powered by Immersive Technologies

Cinematic & Immersive Learning, Advanced Systems Architecture, and Secure Learning Analytics.

Differentiators

Commitment to Excellence

STISHA's dedication to excellence is reflected in the adherence to internationally recognized standards and frameworks.

- ♦ **CMMI Development Maturity Level 5:** This highest level of maturity indicates that STISHA's processes are well-defined and optimized for continuous improvement.
- ♦ **CMMI Services Maturity Level 3:** Achieving this level signifies that our service management processes are continuously standardized, repeatable, and documented.

Commitment to Quality and Compliance

Quality and compliance are non-negotiable aspects of STISHA's operations. Each partner company brings a wealth of experience in adhering to stringent quality standards and regulatory requirements. This commitment is evident in their ISO certifications and industry accolades.

- ♦ **ISO 9001: 2015** - Quality Management
- ♦ **ISO/IEC 20000-1:2018** - IT Service Management
- ♦ **ISO/IEC 27001:2022** - Information Security Management
- ♦ **IEEE Computer Society/Software Engineering Institute Watts S. Humphrey Software Quality Award** (two-time recipient for outstanding software quality and process maturity)
- ♦ **U.S. Government Information Security Leadership Award (GISLA)** - Honored for secure software lifecycle practices, demonstrating leadership in building resilient and secure systems.

Connect With Us
